

119TH CONGRESS  
1ST SESSION

# H. CON. RES. 55

Designating September 2025 as “Gynecologic Cancers Awareness Month”.

---

## IN THE HOUSE OF REPRESENTATIVES

OCTOBER 6, 2025

Mrs. DINGELL (for herself and Mr. BACON) submitted the following concurrent resolution; which was referred to the Committee on Energy and Commerce

---

## CONCURRENT RESOLUTION

Designating September 2025 as “Gynecologic Cancers Awareness Month”.

Whereas gynecologic cancers include cervical, ovarian, endometrial/uterine, vaginal, and vulvar cancers with the first 3 being the most common;

Whereas there are approximately 118,920 new cases of these cancers diagnosed and approximately 34,630 deaths from gynecologic cancers annually;

Whereas endometrial cancer is 1 of the few cancers with rising incidence and mortality rates;

Whereas endometrial and ovarian cancer rank fifth and sixth in cancer deaths among women, respectively;

Whereas symptoms are often vague or misunderstood, and there are no screening tests to identify endometrial and ovarian cancers before they progress to later stages;

Whereas cervical cancer is the only gynecologic cancer with a reliable screening test and is vaccine-preventable;

Whereas increased awareness of gynecologic cancers can lead to earlier diagnosis, followup with appropriate health professionals, and improved outcomes; and

Whereas the Foundation for Women’s Cancer and other organizations celebrate September 2025 as “Gynecologic Cancers Awareness Month”: Now, therefore, be it

1        *Resolved by the House of Representatives (the Senate*  
2 *concurring), That Congress—*

3            (1) supports the designation of “Gynecologic  
4        Cancers Awareness Month”;

5            (2) supports the goals and ideals of  
6        “Gynecologic Cancers Awareness Month”;

7            (3) recognizes and affirms the commitment of  
8        the United States to reducing the burden of these  
9        cancers on women by—

10            (A) promoting awareness about the causes,  
11            risks, and prevention of gynecologic cancers;

12            (B) supporting research on gynecologic  
13            cancers; and

14            (C) taking other steps to improve health  
15            outcomes associated with these cancers and re-  
16            duce associated mortality; and

1           (4) encourages every person in the United  
2 States to learn about the risk for gynecologic can-  
3 cers.
