IN THE HOUSE OF REPRESENTATIVES

JUNE 30, 2025

Ms. STRICKLAND (for herself, Mrs. FLETCHER, Mr. SMITH of Washington, Mr. POCAN, Mr. CLEAVER, Ms. TITUS, Ms. CROCKETT, Mr. PANETTA, Ms. KAMLAGER-DOVE, Ms. SÁNCHEZ, Mr. CASTEN, Ms. McCLELLAN, Ms. DELBENE, and Mrs. RAMIREZ) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To authorize grants to eligible entities to pay for travel-related expenses and logistical support for individuals with respect to accessing abortion services, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Reproductive Health
5 Travel Fund Act of 2025”.

6 **SEC. 2. FINDINGS.**

7 Congress finds as follows:

1 (1) On June 24, 2022, in its decision in *Dobbs*
2 *v. Jackson Women’s Health Organization* (142 S.
3 Ct. 2228 (2022)) (referred to in this section as the
4 “*Dobbs decision*”), the Supreme Court overturned
5 *Roe v. Wade* (410 U.S. 113 (1973)), eliminating the
6 constitutional right to abortion and reversing dec-
7 ades of precedent recognizing the constitutional
8 right to an abortion.

9 (2) While abortion has never been accessible to
10 all even under the framework of *Roe v. Wade*, the
11 *Dobbs decision* has decimated access for millions of
12 people in the United States.

13 (3) As expected, the impacts of the *Dobbs deci-*
14 sion have fallen the hardest on people who already
15 face barriers to health care access due to systemic
16 barriers and discrimination, particularly Black peo-
17 ple, Indigenous people, and other people of color,
18 people with disabilities, people in rural areas, young
19 people, people with documentation barriers,
20 LGBTQ+ people, people who are parenting, people
21 with complex medical needs who require hospital-
22 based care, and people having difficulty making ends
23 meet.

24 (4) Abortion bans prevent many people from ac-
25 cessing the care they want and need.

1 (5) People have always had abortions and al-
2 ways will, even in the face of legal, financial, and
3 logistical barriers, or criminalization. However, since
4 the Dobbs decision, many are being forced to travel
5 hundreds of miles away from their homes and com-
6 munities, taking extra time off of work, forgoing
7 days of pay, piecing together extended childcare, and
8 finding ways to cover significant travel expenses.
9 Others are being forced to carry their pregnancies to
10 term.

11 (6) Just months after the Dobbs decision, one-
12 third of women of reproductive age in the United
13 States faced excessive travel times for abortion. For
14 residents of States that had banned abortion, travel
15 times increased by more than 4 hours on average.
16 Black women faced the greatest impact, with 40 per-
17 cent needing to drive at least 1 hour for abortion
18 care after the decision, versus 15 percent before the
19 decision.

20 (7) Abortion funds and practical support funds
21 (referred to in this section as “abortion funds” or
22 “funds”) are community-based organizations that
23 support people in overcoming financial and logistical
24 barriers to abortion care. In 2024, abortion funds

1 provided over \$50,000,000 for abortion funding and
2 over \$13,000,000 for logistical support.

3 (8) Funds work together to remove financial
4 and logistical barriers to abortion access and have
5 been doing this work for decades. Funds help cover
6 transportation, food, lodging, childcare, translation
7 support, doula services, and other supports abortion
8 seekers and their families need.

9 (9) Many funds are led by people who have had
10 abortions themselves, including a growing base of
11 Black and Brown leaders who have themselves faced
12 abortion obstacles and understand the complex cir-
13 cumstances individuals may face.

14 (10) Abortion funds have a history of being
15 under-resourced and rely mostly on volunteer time
16 and energy to support communities.

17 (11) Abortion and practical support funds hold
18 some of the closest ties to people who are having
19 abortions and have the first hand experience, up-to-
20 date and on-the-ground knowledge, and the regional
21 and national connections needed to support abortion
22 seekers financially, emotionally, or logistically.

23 (12) More and more States are seeking to ban
24 abortion or enact extreme restrictions, significantly
25 limiting the circumstances in which abortions are

1 available. Furthermore, people have been prevented
2 from seeking care because of the confusion created
3 by new and changing abortion restrictions, misin-
4 formation, disinformation, and muddled judicial de-
5 cisions, all of which have contributed to a chilling ef-
6 fect for people seeking legal care out of State. Peo-
7 ple seeking abortions often do not have a full under-
8 standing of the shifting legal landscape, including
9 abortion laws, in their State. People calling abortion
10 funds for support often ask if they are doing some-
11 thing illegal by traveling to get care of the abortion
12 laws in their State and people calling abortion funds
13 for support often ask if they are doing something il-
14 legal by traveling to get care. Abortion funds serve
15 to mitigate this confusion and directly connect peo-
16 ple to accurate information.

17 (13) Following the Dobbs decision, the demand
18 for abortions has surged, with requests increasing by
19 56 percent from 2023 to 2024. During the same pe-
20 riod, the number of abortion seekers supported by
21 abortion funds grew by 33 percent. Despite immense
22 efforts from abortion funds from 2022 to 2024, the
23 number of callers who received support decreased
24 from 70 percent to 54 percent. This is due to esca-
25 lating costs of abortion care and practical support,

1 as well as inadequate funding to meet the post-
2 Dobbs demand.

3 (14) Clinics in States where abortion is legal
4 and more accessible continue to receive an influx of
5 people seeking abortions.

6 (15) When people are not able to access an
7 abortion when they need it, they may be forced to
8 seek an abortion later into their pregnancy. This in-
9 creases costs exponentially. Barriers to abortion care
10 after the Dobbs decision have led to an increasing
11 complexity in the cases that abortion funds are man-
12 aging. People who are forced to cross State lines for
13 abortion care may need increased financial support
14 for coordinating and paying for higher logistical bar-
15 riers (such as transportation, lodging, meals,
16 childcare, medication) to access the abortion care
17 they want, need, and deserve. For many, the in-
18 creased financial burden will push abortion care
19 completely out of reach without financial and
20 logistical assistance for appointment costs and trav-
21 el.
