

119TH CONGRESS
1ST SESSION

H. R. 550

To require the Government Accountability Office to conduct a study regarding insurance coverage for damages from wildfires, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 16, 2025

Ms. WATERS (for herself and Mr. SHERMAN) introduced the following bill;
which was referred to the Committee on Financial Services

A BILL

To require the Government Accountability Office to conduct a study regarding insurance coverage for damages from wildfires, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Wildfire Insurance
5 Coverage Study Act of 2025”.

6 **SEC. 2. GAO STUDY REGARDING INSURANCE FOR WILDFIRE**
7 **DAMAGE.**

8 (a) STUDY.—The Comptroller General of the United
9 States, in consultation with the Director of the Federal

1 Insurance Office and State insurance regulators, shall
2 conduct a study to analyze and determine the following:

3 (1) RISK ASSESSMENT.—The extent and nature
4 of wildfire risk in the United States, including—

5 (A) identifying trends in declarations for
6 wildfires under the Fire Management Assist-
7 ance grant program under section 420 of the
8 Robert T. Stafford Disaster Relief and Emer-
9 gency Assistance Act (42 U.S.C. 5187), with
10 respect to geography, costs, probability, and
11 frequency of wildfire disasters;

12 (B) identifying mitigation practices that
13 would assist in reducing costs and risks for in-
14 surance policies covering damages from
15 wildfires;

16 (C) identifying existing programs of the
17 Federal Government and State governments
18 that measure wildfire risk and assess their ef-
19 fectiveness in forecasting wildfire events and in-
20 forming wildfire response; and

21 (D) analyzing and assessing the need for a
22 national map for measuring and quantifying
23 wildfire risk.

24 (2) EXISTING STATE OF COVERAGE.—With re-
25 spect to the existing state of homeowners insurance

1 coverage and commercial property insurance cov-
2 erage for damage from wildfires in the United
3 States—

4 (A) the extent to which private insurers
5 have, during the 10-year period ending on the
6 date of the enactment of this Act, adjusted
7 rates, policyholder cost-sharing provisions, or
8 both for such coverage (after adjusting for in-
9 flation) and the geographic areas in which ad-
10 justed rates, policyholder cost-sharing, or both
11 have increased;

12 (B) the extent to which private insurers
13 have, during the 10-year period ending on the
14 date of the enactment of this Act, declined to
15 renew policies for such coverages and the geo-
16 graphic areas to which such declinations ap-
17 plied;

18 (C) the events and economic factors that
19 have contributed to any such increased rates
20 and declinations to renew policies;

21 (D) in cases in which private insurers have
22 curtailed their overall wildfire exposure, the ex-
23 tent to which homeowners insurance coverage
24 and commercial property coverage were termi-
25 nated altogether and the extent to which such

coverages are still offered but with coverage for damage from wildfires excluded; and

(E) the extent to which, and circumstances under which, private insurers are continuing to provide coverage for damage from wildfires—

(i) in general;

(ii) subject to a condition that mitigation activities are taken, such as hardening of properties and landscaping against wildfires, by property owners, State or local governments, park or forest authorities, or other land management authorities; and

(iii) subject to any other conditions.

(3) REGULATORY RESPONSES.—With respect to actions taken by State insurance regulatory agencies in response to increased premium rates, policyholder cost-sharing, or both for coverage for damage from wildfires or exclusion of such coverage from homeowners insurance policies—

(A) the extent to which States have leveraged their respective authorities to regulate rate increases;

(B) the extent to which States have enacted any moratoria on such rate and policy-

holder cost-sharing increases or exclusions and on non-renewals;

(C) the extent to which States require homeowners insurance coverage to include coverage for damage from wildfires or make sales of homeowners insurance coverage contingent on the sale, underwriting, or financing of separate wildfire coverage in the State;

(D) the extent to which States have established State residual market insurance entities, reinsurance programs, or similar mechanisms for coverage of damages from wildfires;

(E) any other actions States or localities have taken in response to increased premium rates, policyholder cost-sharing, or both for coverage for damage from wildfires or exclusion of such coverage from homeowners policies, including forestry and wildfire management policies and subsidies for premiums and cost-sharing for wildfire coverage;

(F) the effects of actions taken by States on the availability, coverage level, and affordability of homeowners insurance coverage; and

(G) the effectiveness and sustainability of such actions taken by States.

1 (4) CHALLENGES IN UNDERWRITING WILDFIRE
2 RISK.—With respect to the challenges faced by pri-
3 vate insurers underwriting wildfire risk, what is or
4 are—

5 (A) the correlated risks and the extent of
6 such risks;

7 (B) the factors affecting the extent of pri-
8 vate insurers' ability to estimate magnitude of
9 future likelihood of wildfires and of expected
10 damages from wildfires;

11 (C) the effects of the need to increase more
12 affordable housing options, which may con-
13 tribute to increased homebuilding in more re-
14 mote, heavily-wooded areas with higher wildfire
15 risk;

16 (D) the potential for wildfire losses suffi-
17 ciently large to jeopardize insurers' solvency;

18 (E) the extent to which, and areas in
19 which, risk-adjusted market premiums for wild-
20 fire risk limit affordability or availability of cov-
21 erage for consumers;

22 (F) the effects of various existing and po-
23 tential State and Federal Government responses
24 to help address these challenges and mitigate
25 wildfire risk, including actions such as—

1 (i) improved forest management poli-
2 cies;

3 (ii) improved data to estimate risk;

4 (iii) relocating homeowners from wild-
5 fire zones;

6 (iv) offsetting a portion of insurers'
7 charged risk-adjusted premiums with
8 means-tested government affordability pro-
9 grams for lower income homeowners;

10 (v) encouraging the increased use of
11 private reinsurance and other risk-sharing
12 mechanisms by insurers to better diversify
13 wildfire risk; and

14 (vi) developing programs that offset
15 the costs of wildfire risk for consumers and
16 industry;

17 (G) the available policy responses if private
18 insurers exit the wildfire coverage market and
19 the potential advantages and disadvantages of
20 each such response;

21 (H) the effects of the availability and af-
22 fordability of wildfire coverage, policyholder
23 cost-sharing, or both, on—

24 (i) local communities that are dis-
25 proportionately vulnerable to wildfires, in-

1 cluding on low- or moderate-income prop-
2 erty owners and small businesses;

3 (ii) rebuilding in communities pre-
4 viously damaged by wildfires;

5 (iii) the availability and affordability
6 of housing supply; and

7 (iv) the demand for wildfire insurance
8 coverage by property owners;

9 (I) the effects of potential State prohibi-
10 tions on termination of policies due to wildfire
11 claims on insurer solvency; and

12 (J) the manner in which private insurers
13 are modeling or estimating future wildfire risk.

14 (b) REPORT.—Not later than the expiration of the
15 12-month period beginning on the date of the enactment
16 of this Act, the Comptroller General shall submit to the
17 Congress a report identifying the findings and conclusions
18 of the study conducted pursuant to subsection (a).

○
