

119TH CONGRESS
2D SESSION

H. R. 7116

To establish programs to reduce rates of sepsis.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 15, 2026

Mr. NORCROSS (for himself and Mr. KEAN) introduced the following bill;
which was referred to the Committee on Energy and Commerce

A BILL

To establish programs to reduce rates of sepsis.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Securing Enhanced
5 Programs, Systems, and Initiatives for Sepsis Act” or the
6 “SEPSIS Act”.

7 **SEC. 2. FINDINGS.**

8 Congress finds as follows:

9 (1) 1,700,000 individuals in the United States
10 are diagnosed with sepsis annually and 350,000 in-
11 dividuals in the United States are killed by sepsis
12 each year.

1 (2) There is a need for increased Federal in-
2 vestment in research related to sepsis to build on re-
3 search supported by the National Institutes of
4 Health, including research with a pediatric focus
5 supported by the Eunice Kennedy Shriver National
6 Institute of Child Health and Human Development.

7 (3) The infectious disease workforce, which
8 plays a key role in reducing the burden of sepsis,
9 needs additional support to recruit and retain health
10 care professionals engaged in infection prevention
11 and related patient care.

12 (4) Sepsis is one of the most expensive condi-
13 tions to treat in hospitals in the United States, with
14 high spending compounded by frequent hospital re-
15 admissions, including 1 in 5 patient re-admissions
16 within 30 days of discharge and 1 in 3 patient re-
17 admissions within 180 days of discharge.

18 (5) According to the Centers for Disease Con-
19 trol and Prevention, 80 percent of sepsis cases begin
20 outside of the hospital.

21 (6) Most sepsis fatalities are preventable with
22 early recognition, diagnosis, and treatment.

23 (7) The sepsis protocols for hospitals in New
24 York State, called “Rory’s Regulations” for Rory
25 Staunton who died from preventable, treatable sepsis

1 at 12 years of age, have been proven to save lives
2 through rapid identification and treatment of sepsis.

3 (8) Providers and public health experts should
4 study and learn from Rory's Regulations to find
5 ways to end preventable deaths from sepsis on a na-
6 tional scale.

7 **SEC. 3. SEPSIS PROGRAMS.**

8 Title III of the Public Health Service Act (42 U.S.C.
9 241 et seq.) is amended by inserting after section 317V
10 the following:
