

119TH CONGRESS
1ST SESSION

H. R. 752

To provide for methane emission detection and mitigation, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 28, 2025

Mr. CASTEN introduced the following bill; which was referred to the Committee on Science, Space, and Technology

A BILL

To provide for methane emission detection and mitigation, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Methane Emissions
5 Mitigation Research and Development Act”.

6 **SEC. 2. METHANE EMISSION DETECTION AND MITIGATION.**

7 (a) IN GENERAL.—Subtitle F of title IX of the En-
8 ergy Policy Act of 2005 (42 U.S.C. 16291 et seq.) is
9 amended by adding at the end the following new section:

1 **“SEC. 969E. METHANE LEAK DETECTION AND MITIGATION.**

2 “(a) TECHNICAL ASSISTANCE.—

3 “(1) IN GENERAL.—The Secretary, in consulta-
4 tion with the Administrator of the Environmental
5 Protection Agency, the Secretary of Commerce, and
6 the heads of other appropriate Federal agencies,
7 shall carry out a program of methane emissions de-
8 tection and mitigation research, development, and
9 demonstration for technologies and methods that
10 significantly detect, quantify, and mitigate methane
11 emissions. In carrying out the program, the Sec-
12 retary shall—

13 “(A) enter into cooperative agreements
14 with State or local governments, institutions of
15 higher education, or for-profit entities to pro-
16 vide technical assistance to—

17 “(i) prevent or respond to methane re-
18 leases, including prediction, detection, miti-
19 gation, quantification, and identification of
20 leaks, vents, and other outflows throughout
21 the natural gas infrastructure (including
22 natural gas storage, pipelines, and natural
23 gas production sites); and

24 “(ii) protect public health in the event
25 of a major methane release;

1 “(B) in coordination with representatives
2 from private sector entities, State and local gov-
3 ernments, and institutions of higher education,
4 establish a publicly accessible resource for best
5 practices in the design, construction, mainte-
6 nance, performance, monitoring, and incident
7 response for—

8 “(i) pipeline systems, including com-
9 pressor stations;

10 “(ii) production wells;

11 “(iii) storage facilities; and

12 “(iv) other vulnerable infrastructure;

13 “(C) in coordination with representatives
14 from private sector entities, State and local gov-
15 ernments, and institutions of higher education,
16 establish a publicly accessible resource for best
17 practices in evaluation and incorporation of
18 emission reduction technologies, including—

19 “(i) metrics for performance evalua-
20 tion; and

21 “(ii) principles for selection and inte-
22 gration of emission reduction technologies
23 that are best suited for the project or enti-
24 ty concerned;

1 “(D) support research of technologies to
2 more accurately quantify emissions, including—

3 “(i) the ability to accurately charac-
4 terize and measure methane emissions
5 through various atmospheric conditions
6 such as wind, rain, fog, and dust;

7 “(ii) improvements to data analytics
8 and machine learning platforms;

9 “(iii) the ability to characterize tem-
10 poral patterns in emissions, such as
11 through continuous monitoring or multi-
12 tiered system practices;

13 “(iv) improvements to high-resolution
14 spectroscopic databases of methane;

15 “(v) the ability to remotely detect car-
16 bon and ethane isotopes to facilitate attri-
17 bution of sources of methane emissions;
18 and

19 “(vi) improvements to Lidar detection
20 technologies;

21 “(E) identify high-risk characteristics of
22 pipelines, wells, storage facilities, and materials,
23 geologic risk factors, or other key factors that
24 increase the likelihood or intensity of methane
25 emissions leaks;

1 “(F) identify methane mitigation methods
2 and technologies in coal mines; and

3 “(G) in collaboration with private sector
4 entities and institutions of higher education,
5 quantify and map significant geologic methane
6 seeps and other sources of natural emissions
7 across the United States.

8 “(2) CONSIDERATIONS.—In carrying out the
9 program under this section, the Secretary shall con-
10 sider the following:

11 “(A) Historical data of methane emissions.

12 “(B) Public health consequences.

13 “(C) Public safety.

14 “(D) Novel materials and designs for pipe-
15 lines, compressor stations, components, and
16 wells (including casing, cement, and wellhead).

17 “(E) Regional geologic traits.

18 “(F) Induced and natural seismicity.

19 “(b) METHANE LEAK DETECTION CONSORTIUM.—

20 “(1) IN GENERAL.—Not later than 1 year after
21 the date of the enactment of this section, the Sec-
22 retary shall establish and operate a Methane Emis-
23 sions Measurement and Mitigation Research Consor-
24 tium (in this section referred to as the ‘Consortium’)
25 for the purpose of supporting, to the maximum ex-

1 tent practicable, data sharing, research
2 prioritization, and researching cooperative leak de-
3 tection and repair strategies pertaining to methane
4 emissions detection, quantification, and mitigation.

5 “(2) MEMBERSHIP.—The members of the Con-
6 sortium shall be representatives from the National
7 Institute of Standards and Technology, other rel-
8 evant Federal agencies, National Laboratories, oil
9 and gas operators and industry groups, vendors of
10 methane detection and quantification technologies,
11 institutions of higher education, community organi-
12 zations, relevant nongovernmental organizations, and
13 other entities.

14 “(3) RESPONSIBILITIES.—The Consortium shall
15 develop and implement a multiyear plan that—

16 “(A) identifies technical goals and mile-
17 stones for the Consortium; and

18 “(B) facilitates data sharing for the pur-
19 poses of—

20 “(i) bettering the understanding of
21 methane emissions from the oil and gas
22 sector;

23 “(ii) improving emissions detection,
24 measurement, and mitigation capabilities,

1 including assessing multi-tiered atmos-
2 pheric measurements; and

3 “(iii) improving the understanding of
4 methane quantification data analytics and
5 machine learning platforms, including for
6 calibration of measurements.

7 “(4) REPORTING.—

8 “(A) IN GENERAL.—The Secretary shall
9 report on the Consortium’s activities to the ap-
10 propriate congressional committees.

11 “(B) INITIAL REPORT.—Not later than 18
12 months after the date of the enactment of this
13 section, the Secretary shall submit to the appro-
14 priate congressional committees a report sum-
15 marizing the activities, findings, and progress
16 of the program under this section. The report
17 shall include the following:

18 “(i) A review of LDAR technologies
19 available to the oil and gas sector for the
20 purpose of methane emissions measure-
21 ment and mitigation.

22 “(ii) A summary of research gaps and
23 priorities related to methane emissions de-
24 tection, measurement, and mitigation capa-
25 bilities.

1 “(iii) A description of the data shar-
2 ing and cooperative activities that have
3 been initiated pursuant to paragraph
4 (3)(B).

5 “(C) ANNUAL REPORT.—Not later than 1
6 year after the date on which the report under
7 subparagraph (B) is submitted and annually
8 thereafter, the Secretary shall submit to the ap-
9 propriate congressional committees a report
10 summarizing the activities, findings, and
11 progress of the program under this section. The
12 report shall include the following:

13 “(i) An updated review of LDAR
14 technologies available to oil and gas opera-
15 tors for the purpose of methane emissions
16 measurement and mitigation.

17 “(ii) A description of the state of
18 methane emissions detection and measure-
19 ment capabilities.

20 “(iii) A summary of research prior-
21 ities relating to methane emissions detec-
22 tion, measurement, and mitigation.

23 “(iv) An update on the data sharing
24 and cooperative activities undertaken by
25 members of the Consortium.

1 “(5) SUNSET; TERMINATION.—

2 “(A) IN GENERAL.—The Secretary may
3 provide support to the Consortium for a period
4 of not more than ten years, subject to the avail-
5 ability of appropriations.

6 “(B) MERIT REVIEW.—Not later than 5
7 years after the date on which the Consortium is
8 established, the Secretary shall conduct a re-
9 view to determine whether the Consortium has
10 achieved the technical goals and milestones
11 identified under paragraph (3)(A).

12 “(6) DEFINITIONS.—In this section:

13 “(A) APPROPRIATE CONGRESSIONAL COM-
14 MITTEES.—The term ‘appropriate congressional
15 committees’ means the Committee on Science,
16 Space, and Technology of the House of Rep-
17 resentatives and the Committee on Energy and
18 Natural Resources of the Senate.

19 “(B) LDAR.—The term ‘LDAR’ means a
20 technology, program, or activity that is intended
21 to monitor, detect, measure, or repair methane
22 leaks.

23 “(C) SECRETARY.—The term ‘Secretary’
24 means the Secretary of Energy.

1 “(7) AUTHORIZATION OF APPROPRIATIONS.—

2 There are authorized to be appropriated to the Sec-
3 retary to carry out this section the following:

4 “(A) \$36,000,000 for fiscal year 2026.

5 “(B) \$38,000,000 for fiscal year 2027.

6 “(C) \$40,000,000 for fiscal year 2028.

7 “(D) \$42,000,000 for fiscal year 2029.

8 “(E) \$44,000,000 for fiscal year 2030.”.

9 (b) CLERICAL AMENDMENT.—The table of contents
10 in section 1(b) of the Energy Policy Act of 2005 is amend-
11 ed by adding at the end of the items relating to subtitle
12 F of title IX of such Act the following new item:

 “Sec. 969E. Methane leak detection and mitigation.”.

13 (c) NATIONAL FACILITIES FOR TESTING AND INTER-
14 CALIBRATION PROGRAM RELATING TO METHANE.—

15 (1) IN GENERAL.—Not later than 1 year after
16 the date of the enactment of this Act and subject to
17 the availability of appropriations, the Secretary of
18 Commerce, in consultation with the Secretary of En-
19 ergy and the Administrator of the Environmental
20 Protection Agency, shall establish a program
21 through the National Institute of Standards and
22 Technology’s Center for Greenhouse Gas Measure-
23 ments, Standards, and Information established pur-
24 suant to section 10222 of the Research and Develop-
25 ment, Competition, and Innovation Act (Public Law

1 117–167; 42 U.S.C. 18932) that establishes national
2 facilities to advance methane detection, quantifica-
3 tion, and relevant standards and supporting methods
4 for testing and intercalibration of methane measure-
5 ments and the publication and maintenance of
6 standards for such measurements.

7 (2) RESPONSIBILITIES.—The facilities estab-
8 lished under paragraph (1) shall facilitate detection
9 and quantification of carbon, carbon isotopes, meth-
10 ane, ethane, and gases associated with such sources,
11 provide high-resolution spectroscopic reference data
12 advancing accuracy of remote sensing technologies,
13 develop methods relating methane concentration ob-
14 servations to the associated emission fluxes, and fa-
15 cilitate the rapid performance testing of existing and
16 new technologies for the measurement of methane
17 emissions, including testing conditions with a wide
18 range of the following:

19 (A) Sizes and extents of emission sources.

20 (B) Geographic diversity.

21 (C) Temporal characteristics.

22 (D) Diversity of atmospheric conditions,
23 such as wind, rain, fog, clouds, and dust.

24 (E) Diversity of observing platforms.

1 (F) Quantification of atmospheric emission
2 plumes.

3 (3) ANNUAL REPORT.—Not later than 2 years
4 after the date of the enactment of this Act and an-
5 nually thereafter, the Secretary of Commerce shall
6 submit to Congress a report summarizing the activi-
7 ties, findings, and progress of the program estab-
8 lished under paragraph (1).

9 (4) AUTHORIZATION OF APPROPRIATIONS.—
10 There are authorized to be appropriated to the Sec-
11 retary of Commerce to carry out this section the fol-
12 lowing:

13 (A) \$15,000,000 for fiscal year 2026.

14 (B) \$17,000,000 for fiscal year 2027.

15 (C) \$19,000,000 for fiscal year 2028.

16 (D) \$21,000,000 for fiscal year 2029.

17 (E) \$23,000,000 for fiscal year 2030 and
18 each fiscal year thereafter.

○
