## A BILL

To require the collection of information on multigenerational caregiving in at least one major Federal population survey, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Multigenerational  
5 Caregiving Data Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1           (1) A growing number of individuals in the  
2 United States provide unpaid care to both children  
3 and older adults.

4           (2) These individuals face distinct economic,  
5 health, and workforce challenges.

6           (3) Existing Federal data do not adequately  
7 capture multigenerational caregiving responsibilities,  
8 particularly when care is provided across households.

9           (4) Improved data collection would enhance pol-  
10 icymaking related to caregiving, labor force partici-  
11 pation, and health outcomes.

12           (5) Major Federal population surveys, including  
13 those conducted by the Bureau of the Census and  
14 the National Center for Health Statistics of the Cen-  
15 ters for Disease Control and Prevention, are appro-  
16 priate instruments for collecting such data.

17 **SEC. 3. DATA COLLECTION REQUIREMENT ON**  
18 **MULTIGENERATIONAL CAREGIVERS.**

19           (a) IN GENERAL.—Not later than 3 years after the  
20 date of enactment of this Act, the Secretary, in consulta-  
21 tion with the heads of relevant Federal statistical agencies,  
22 shall ensure that at least 1 major Federal population sur-  
23 vey includes a question designed to identify individuals  
24 who provided regular unpaid care or assistance as a

1 multigenerational caregiver within the previous 12 month  
2 period.

3 (b) FLEXIBILITY.—The Secretary may modify the  
4 wording, response categories, or placement of the question  
5 required under this section as necessary to—

21 vey, the Secretary shall submit to Congress a report  
22 on the implementation of the question that—

- 23 (A) evaluates data quality and usability;
