

119TH CONGRESS
2^D SESSION

H. RES. 1025

Condemning all acts of violence, oppression, and abuse against ethnic minorities in the Democratic Republic of the Congo.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 30, 2026

Mr. CARSON (for himself, Ms. LEE of Pennsylvania, and Mr. DOGGETT) submitted the following resolution; which was referred to the Committee on Foreign Affairs

RESOLUTION

Condemning all acts of violence, oppression, and abuse against ethnic minorities in the Democratic Republic of the Congo.

Whereas the Democratic Republic of the Congo (referred to in this Resolution as the “DRC”) has been beset for decades by various challenges, including natural disasters, political unrest, abuses against civilians from many communities, and targeted ethnic-based violence;

Whereas ethnic minorities in the DRC have been the targets of an escalation of hate speech and incitement to violence nationwide, including in anti-minority rhetoric employed by some politicians and security force officials;

Whereas hate speech against certain ethnic minorities in the eastern DRC has included rhetoric from politicians and

other public figures characterizing entire ethnic groups as “foreigners” or “invaders” despite many families having resided in the region for generations, thereby creating a climate that facilitates atrocities;

Whereas the United States, the United Nations, credible human rights organizations, the UN Group of Experts, and civil society have documented and published reports or findings that implicate the armed forces of the DRC (referred to in this Resolution as “FARDC”) in aiding and collaborating with armed groups and militias, including the Democratic Forces for the Liberation of Rwanda (FDLR), which has been designated for United Nations sanctions due to human rights violations;

Whereas the return and expansion of M23, which maintains that it represents minority communities facing persecution and operates in response to FDLR, has coincided with large-scale displacement, and whereas credible reports document that minority communities have faced targeted violence and discrimination that M23 cites as justification for its existence;

Whereas the United States strongly urges Rwanda to fully withdraw Rwandan Defense Force troops from the DRC and cease all financial and military support for M23, in accordance with its commitment in the June 2025 peace agreement to respect the territorial integrity and sovereignty of the DRC;

Whereas in January and February 2025, M23 forces seized the city of Goma and large areas of North and South Kivu, committing extrajudicial killings, sexual violence, and abductions, and forcibly closing displaced persons camps in February 2025, leaving thousands of civilians exposed to dire living conditions, as documented by cred-

ible human rights organizations including Human Rights Watch;

Whereas violence against ethnic minority communities perpetrated by the FARDC and government-backed militias including Rwanda-backed M23 and other DRC armed groups may constitute ethnic cleansing or meet one or more of the criteria under Article II of the United Nations Convention on the Prevention and Punishment of the Crime of Genocide, to which the United States and the DRC are parties, particularly in cases where attacks have reportedly been accompanied by genocidal rhetoric;

Whereas militias engage in illicit mining activities to finance and sustain themselves, often exploiting child labor and engaging in environmental degradation practices that undermine the DRC’s economic interests and international treaty obligations;

Whereas in April 2019, the United States and the DRC established the United States-DRC Privileged Partnership for Peace and Prosperity, to which the 2 countries added the Preservation of the Environment in February 2021, which aims to advance democracy, combat corruption and impunity, promote human rights, improve security, and encourage sustainable development and United States investment in the DRC; and

Whereas the Department of State Integrated Country Strategy for the DRC states that “the success of the DRC’s democracy hinges on stability in the country’s eastern provinces”: Now, therefore, be it
