RESOLUTION

Supporting the designation of the week of September 15 through September 19, 2025, as “National Clean Energy Week”.

Whereas, across the United States, clean and readily abundant forms of energy are powering more homes and businesses than ever before;

Whereas clean energy generation is readily available from zero- and low-emissions sources;

Whereas the clean energy sector is a growing part of the economy and has been a key driver of economic growth in the United States in recent years;

Whereas technological innovation can further reduce costs, enhance reliability, and increase deployment of clean energy sources;

Whereas the report of the Department of Energy entitled “U.S. Energy & Employment Report 2025” found that, at the end of 2024, the energy and energy efficiency sectors in the United States employed approximately 8,500,000 individuals;

Whereas the scaling of affordable and exportable clean energy is essential to reducing global emissions;

Whereas clean energy jobs are inherently local, contribute to the growth of local economies, and cannot be outsourced due to the onsite nature of construction, installation, and maintenance;

Whereas innovative clean energy solutions and clean energy jobs are part of the energy future of the United States; and

Whereas September 15 through September 19, 2025, should be considered “National Clean Energy Week”: Now, therefore, be it
