3 **SEC. 3. FINDINGS.**

4 Congress finds the following:

- 5 (1) A child’s brain grows at a faster rate be-
- 6 tween birth and age 3 than at any later point in the
- 7 child’s lifetime.

1 (2) Decades of research show that children
2 under age 3 that receive quality childcare are more
3 likely to have the behavioral, cognitive, and language
4 skills that are developmentally necessary for success
5 in school, college, and life.

6 (3) Of the more than 5,100,000 families with
7 young children that pay for childcare each year, 43
8 percent of parents pay unaffordable rates (defined
9 by the Department of Health and Human Services
10 as more than 7 percent of income).

11 (4) In 2023, the average cost of childcare in the
12 United States was \$3,190 a month for nanny care,
13 \$1,230 a month for a daycare center, and \$992 a
14 month for home daycare, with families on average
15 spending 24 percent of their household income on
16 childcare expenses. Families pushed into poverty
17 from childcare expenses typically spend almost 28
18 percent of their income on childcare.

19 (5) According to a 2023 report, there are an es-
20 timated 5,400,000 college students with dependent
21 children.

22 (6) According to a 2020 report, only about 5
23 percent of colleges and universities are providing the
24 child care slots that student parents need, leading to
25 long wait lists.

1 (7) Student parents are nearly twice as likely to
2 depart college prior to graduation than students
3 without children. Single mothers and Black parents,
4 especially fathers, are particularly likely to suspend
5 enrollment before completing their educational pro-
6 grams.

7 (8) The Child Care Access Means Parents in
8 School Federal grant program under subpart 7 of
9 part A of title IV of the Higher Education Act of
10 1965 (20 U.S.C. 1070e et seq.) helps over 3,300
11 students at institutions of higher education afford
12 child care each year, but this program impacts just
13 0.5 percent of the entire student parent population,
14 and many institutions of higher education do not
15 open their subsidized child care programs to children
16 under age 3.

17 (9) The share of public institutions of higher
18 education offering childcare services has fallen in re-
19 cent decades. Of public, 4-year institutions of higher
20 education, 455 had on-campus day care for the chil-
21 dren of students in 2005, compared to 369 such in-
22 stitutions in 2023. Of public, 2-year institutions of
23 higher education, 464 had on-campus day care for
24 the children of students in 2005, compared to 304
25 such institutions in 2023.

1 (10) Student parents are more likely to be en-
2 rolled at community colleges and minority-serving
3 institutions than other institutions of higher edu-
4 cation. Over half of student mothers, 51 percent, at-
5 tend community and technical colleges.

6 (11) Community colleges and minority-serving
7 institutions lead the higher education sector in edu-
8 cating infant and toddler childcare providers, espe-
9 cially childcare providers of color, so those colleges
10 and institutions are the optimal actors for driving
11 quality infant and toddler childcare access in their
12 regions.
