

119TH CONGRESS
1ST SESSION

S. 1928

To require the Comptroller General of the United States to submit to Congress a report on esophageal cancer with respect to the Federal Employees Health Benefits Program, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JUNE 3, 2025

Mr. WARNER (for himself and Mr. KAINE) introduced the following bill; which was read twice and referred to the Committee on Homeland Security and Governmental Affairs

A BILL

To require the Comptroller General of the United States to submit to Congress a report on esophageal cancer with respect to the Federal Employees Health Benefits Program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Gerald E. Connolly
5 Esophageal Cancer Awareness Act of 2025”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

1 (1) esophageal cancer is the fastest increasing
2 cancer among men in the United States;

3 (2) esophageal cancer is one of the fastest
4 growing cancer diagnoses among all people of the
5 United States, with the incidence of esophageal can-
6 cer increasing by more than 700 percent in recent
7 decades;

8 (3) esophageal cancer kills 1 individual in the
9 United States every 36 minutes every day;

10 (4) esophageal cancer is among the deadliest of
11 cancers, with only about 1 in 5 patients surviving 5
12 years;

13 (5) esophageal cancer has tripled in incidence
14 among younger people of the United States in recent
15 decades;

16 (6) esophageal cancer has low survival rates be-
17 cause it is usually discovered at advanced stages
18 when treatment outcomes are poor;

19 (7) raising awareness about esophageal cancer
20 empowers individuals to seek preventive care, recog-
21 nize symptoms, and pursue early detection strate-
22 gies;

23 (8) survivors, caregivers, medical professionals,
24 and researchers have made tremendous strides in
25 advancing treatment options and improving the

1 quality of life for those affected by esophageal can-
2 cer;

3 (9) esophageal cancer can be prevented through
4 early detection of its precursor, Barrett’s esophagus,
5 which can be eliminated with curative outpatient
6 techniques;

7 (10) research indicates that patients diagnosed
8 with early-stage esophageal cancer have a signifi-
9 cantly higher 5-year survival rate (as high as 49 per-
10 cent) compared to those diagnosed at later stages,
11 underscoring the critical need for enhanced screen-
12 ing and awareness; and

13 (11) as of December 2022, the American Gas-
14 troenterological Association recommends screening
15 with a standard upper endoscopy in individuals with
16 3 or more established risk factors for Barrett’s
17 esophagus and esophageal adenocarcinoma, includ-
18 ing—

19 (A) male sex;

20 (B) non-Hispanic White ethnicity;

21 (C) age of 50 years or older;

22 (D) a history of smoking, chronic gastro-
23 intestinal reflux disease, or obesity; and

24 (E) a family history of Barrett’s esophagus
25 or esophageal adenocarcinoma.

1 **SEC. 3. REPORT BY COMPTROLLER GENERAL OF THE**
2 **UNITED STATES.**

3 (a) DEFINITION.—In this section, the term “Pro-
4 gram” means the program carried out under chapter 89
5 of title 5, United States Code.

6 (b) REPORT.—Not later than 1 year after the date
7 of enactment of this Act, the Comptroller General of the
8 United States shall submit to Congress a report that in-
9 cludes an evaluation of—

10 (1) the total impact of esophageal cancer-re-
11 lated health care spending under the Program for
12 individuals who are covered under the Program and
13 who are diagnosed with esophageal cancer; and

14 (2) how often individuals who are covered under
15 the Program, and who have medical records indi-
16 cating that those individuals are high-risk for esoph-
17 ageal cancer, undergo screening for esophageal can-
18 cer according to established guidelines.
