

119TH CONGRESS  
1ST SESSION

# S. 1951

To ensure the preservation and operational integrity of the aeromedical evacuation capabilities of the Department of the Army within the Medical Service Corps and to maintain the role of the Medical Service Corps as the primary joint service provider for intra-theater aeromedical evacuation, and for other purposes.

---

## IN THE SENATE OF THE UNITED STATES

JUNE 4, 2025

Mr. CRUZ introduced the following bill; which was read twice and referred to the Committee on Armed Services

---

## A BILL

To ensure the preservation and operational integrity of the aeromedical evacuation capabilities of the Department of the Army within the Medical Service Corps and to maintain the role of the Medical Service Corps as the primary joint service provider for intra-theater aeromedical evacuation, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

### 3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Retaining Essential  
5 Support for Combat and Unified Evacuation Act of 2025”  
6 or the “RESCUE Act of 2025”.

1 **SEC. 2. PRESERVATION OF DEDICATED AEROMEDICAL**  
2 **EVACUATION CAPABILITY OF MEDICAL SERV-**  
3 **ICE CORPS OF THE ARMY.**

4 (a) IN GENERAL.—The Medical Service Corps of the  
5 Army shall maintain a dedicated aeromedical evacuation  
6 capability, including personnel, training, doctrine, and air-  
7 craft specifically configured for aeromedical evacuation  
8 missions.

9 (b) CLARIFICATION OF AUTHORITY.—The Secretary  
10 of the Army shall ensure that—

11 (1) the aviation branch of the Army has the au-  
12 thority to organize, train, and equip aviation assets  
13 in accordance with operational requirements; and

14 (2) the medical department of the Army, under  
15 the authority delegated to such department by the  
16 Surgeon General of the Army, has the authority for  
17 medical command and control, patient care respon-  
18 sibilities, and clinical standards for aeromedical  
19 evacuation operations.

20 (c) ELEMENTS OF CAPABILITY.—The Secretary of  
21 the Army shall maintain the capability required under  
22 subsection (a)—

23 (1) in alignment with the sufficiency analysis of  
24 the Surgeon General of the Army;

1           (2) consistent with medical evacuation doctrine  
2           and operational planning assumptions of the Army;  
3           and

4           (3) in support of—

5                 (A) the commanders of the combatant  
6                 commands;

7                 (B) contingency operations and operational  
8                 plans;

9                 (C) civil authorities;

10                (D) chemical, biological, radiological, and  
11                nuclear response force missions;

12                (E) humanitarian assistance and disaster  
13                response operations; and

14                (F) garrison emergency medical response  
15                operations at installations of the Department of  
16                Defense.

17           (d) CHANGE IN STRUCTURE.—

18                (1) IN GENERAL.—The capability required  
19                under subsection (a) shall remain a distinct compo-  
20                nent within the Medical Service Corps of the Army  
21                and may not be restructured into general-purpose  
22                aviation elements or dual-use configurations without  
23                prior notification to the congressional defense com-  
24                mittees (as defined in section 101(a) of title 10,  
25                United States Code), which shall—

(A) be accompanied by a formal risk assessment on—

(i) operational medical readiness of the Medical Service Corps; and

(ii) readiness of the Medical Service Corps to support the joint force and missions specified under subsection (c)(3); and

(B) contain a report that—

(i) is based on the force structure authorizations outlined in the most current Army Structure Message;

(ii) is informed by the most current Total Army Analysis approved by the Secretary of the Army; and

(iii) does not propose or assume any changes to the aircraft authorizations reflected in the documents specified in clauses (i) and (ii).

(2) OPERATIONAL MEDICAL REQUIREMENTS AND JOINT FORCE NEEDS.—Any adjustments made to the force structure of the aeromedical evacuation capability of the Army must account for operational medical requirements and joint force needs where the Surgeon General of the Army retains authority over the medical force structure, staffing, clinical

1 oversight, and doctrinal development for aeromedical  
2 evacuation units.

3 (e) CHANGE TO ALLOCATIONS.—The Secretary of the  
4 Army may not make any changes to allocations for the  
5 Medical Service Corps of the Army that is inconsistent  
6 with the requirements of this section without prior con-  
7 sultation with the Surgeon General of the Army, who shall  
8 certify that the proposed changes are supported by a suffi-  
9 ciency analysis and that the revised platform levels remain  
10 adequate to support all mission categories requiring  
11 aeromedical evacuation, consistent with medical evacu-  
12 ation doctrine and operational planning assumptions of  
13 the Army.

14 (f) EFFECTIVE DATE.—This section shall take effect  
15 on the date that is 180 days after the date of the enact-  
16 ment of this Act.

17 (g) RULE OF CONSTRUCTION.—Nothing in this sec-  
18 tion shall be construed to prohibit augmentation of mili-  
19 tary patient movement operations with combatant, com-  
20 mercial, or allied assets in contingency or humanitarian  
21 operations, as determined necessary by the Secretary of  
22 Defense.
