A BILL

To ensure affordable abortion coverage and care for every person, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Equal Access to Abor-
5 tion Coverage in Health Insurance Act of 2025” or the
6 “EACH Act of 2025”.

1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) All people should have access to abortion
4 services regardless of actual or perceived race, color,
5 ethnicity, language, ancestry, citizenship, immigra-
6 tion status, sex (including a sex stereotype; preg-
7 nancy, childbirth, or a related medical condition;
8 sexual orientation or gender identity; and sex char-
9 acteristics), age, disability, or sex work status or be-
10 havior.

11 (2) A person's income level, wealth, or type of
12 insurance should not prevent them from having ac-
13 cess to a full range of pregnancy-related health care,
14 including abortion services.

15 (3) No person seeking abortion care should be
16 barred from receiving the procedure based on the
17 ability or inability to afford the health care service.

18 (4) Since the decision in *Dobbs v. Jackson*
19 *Women's Health Organization* (597 U.S. 215
20 (2022)) held that there is no constitutional right to
21 abortion, 19 States have outright banned the proce-
22 dure or imposed a ban at an arbitrary point in preg-
23 nancy. More than 25,000,000 women aged 15 to 44
24 live in States where there are more restrictions im-
25 posed than prior to the *Dobbs* decision. This is near-
26 ly 1 in 5 women.

1 (5) Since 1976, the Federal Government has
2 banned the use of Federal funds to pay for abortion
3 services and allows for exceptions only in very nar-
4 row circumstances. This ban affects people of repro-
5 ductive age in the United States who are insured
6 through the Medicaid program, as well as individuals
7 who receive insurance or care through other feder-
8 ally funded health programs and plans.

9 (6) Women make up the majority of Medicaid
10 enrollees (54 percent), and nearly 2 out of 3 women
11 enrolled in the program are of reproductive age. Due
12 to systematic barriers and discrimination, a dis-
13 proportionately higher number of women of color
14 and Lesbian, Gay, Bisexual, Transgender, or Queer
15 (LGBTQ) individuals are enrolled in the program.

16 (7) More than 40 percent of youth and children
17 under age 19 and 12 percent of young people aged
18 19 to 25 get their health insurance through govern-
19 ment programs.

20 (8) Women of color are more likely to be in-
21 sured by the Medicaid program. As of 2020, 25 per-
22 cent of all Black women aged 19 to 64, or
23 33,000,000 Black women, and 22 percent of all His-
24 panic women are enrolled in Medicaid. Nearly 15
25 percent of Asian American and Pacific Islander

1 women are enrolled in the Medicaid program as of
2 2019.

3 (9) Medicaid also provides coverage to more
4 than 1 in 4 (25 percent) non-elderly American In-
5 dian and Alaska Native (AIAN) women.

6 (10) The Indian Health Service (IHS) is the
7 federally funded health program for American Indi-
8 ans and Alaska Natives. The IHS serves a popu-
9 lation of approximately 2,560,000 and as a federally
10 funded system, since 1988, it has been barred from
11 providing abortion services except for very limited
12 cases. American Indians and Alaska Natives often
13 face higher levels of poverty and limited access to
14 health care for a number of intersecting oppressions
15 thus leaving them without recourse for the Federal
16 ban on abortion services.

17 (11) As of 2025, 30 States and the District of
18 Columbia apply Hyde-like restrictions and restrict
19 Medicaid from covering abortion procedures except
20 in cases of rape, incest, or the pregnant person's life
21 is in danger despite allowance for a State's un-
22 matched funds to provide coverage for abortion. As
23 of 2024, 35 percent, or 5,500,000 women aged 15
24 to 49 who are enrolled in Medicaid live in States

1 where abortion is legal but not covered by the pro-
2 gram except in Hyde-allowable circumstances.

3 (12) Moreover, 25 States also prohibit coverage
4 of abortion services in the marketplaces and 10 pro-
5 hibit coverage in private health insurance plans
6 under the Patient Protection and Affordable Care
7 Act (Public Law 111–148). Conversely, 8 States
8 have no coverage limitations, and an additional 12
9 require coverage in Medicaid, private and market-
10 place plans.

11 (13) A recent report details how restrictions on
12 abortion services coverage interfere with a person’s
13 individual decision making, with their health and
14 well-being, with their economic security, with their
15 vulnerability to intimate partner violence, and with
16 their constitutionally protected right to a safe and
17 normal health care service.

18 (14) About 25 percent of women covered by
19 Medicaid seeking abortion services must carry their
20 pregnancies to term because they are unable to ob-
21 tain funds for their care. Government-imposed bar-
22 riers to abortion services restrict people’s decisions
23 on if, when, and how to parent, and have long-last-
24 ing and life-altering harmful effects on the pregnant
25 person, their families and their communities. Those

1 who seek and are denied abortion services are more
2 likely to remain in or fall into poverty than those
3 who access the care they need.

4 (15) Restrictions on abortion service coverage
5 have a disproportionately harmful impact on women
6 with low incomes, women of color, immigrant
7 women, LGBTQ people, and young women. Addi-
8 tionally, numerous State-imposed barriers make it
9 disparately difficult for low-income people, people of
10 color, immigrants, LGBTQ people, and young people
11 to access the health care and resources necessary to
12 prevent unintended pregnancy or to assure that they
13 are able to carry healthy pregnancies to term. Fur-
14 thermore, young people of reproductive age (ages 15
15 to 24) are more likely to have a lower income than
16 those older than that, and this income gap is greater
17 for young BIPOC. Without insurance coverage for
18 abortion services, young people are at greater risk of
19 not having the economic means to afford care out-
20 side of insurance. Young people face dispropor-
21 tionate access barriers to abortion, including paren-
22 tal involvement requirement (notification and con-
23 sent) and cost, in addition to barriers to contracep-
24 tion and inadequate and incomplete sexual and sexu-
25 ality education. These challenges, which are mag-

1 nified for BIPOC and queer, trans, and nonbinary
2 youth, can cause significant delays in access to need-
3 ed care, and could ultimately harm the life of the
4 young person seeking abortion services. These insti-
5 tutionalized barriers deny young people’s right to
6 bodily autonomy and can force young people to en-
7 counter an abusive parent or guardian, ignores
8 trusted relationships young people may have with
9 adults other than a parent or legal guardian, and in
10 the case of the judicial bypass process, may force
11 young BIPOC to interact with a legal system that
12 has historically targeted and caused harm to com-
13 munities of color.

14 (16) These and other government-created and
15 government-institutionalized barriers—including the
16 restriction on funding for abortion services in Fed-
17 eral programs—exacerbate and create poverty and
18 racial inequality in income, wealth-generation, and
19 access to services.

20 (17) Access to health care, including abortion
21 services, promotes the general welfare of people liv-
22 ing in the United States. Singling out abortion serv-
23 ices for funding restrictions in health care programs
24 otherwise designed to promote the health and well-
25 being of people in the United States has cost preg-

1 nant people their lives, their livelihoods, their ability
2 to obtain or maintain economic security for them-
3 selves and their families, their ability to meet their
4 family’s basic needs, their ability to continue their
5 education without disruption, and their ability to
6 break free of abusive relationships.

7 (18) Like other health care and health insur-
8 ance markets in the United States, abortion services
9 and public insurance programs are commercial ac-
10 tivities that affect interstate commerce. Providers
11 and patients travel across State lines, and otherwise
12 engage in interstate commerce, to provide and access
13 abortion services. Material goods, services, and fed-
14 erally regulated medications used in abortion serv-
15 ices circulate in interstate commerce.

16 (19) Congress has the authority to enact this
17 Act to ensure affordable coverage of abortion and
18 other services pursuant to—

19 (A) its powers under the necessary and
20 proper clause of Section 8, Article I of the Con-
21 stitution of the United States;

22 (B) its powers under the commerce clause
23 of Section 8, Article 1 of the Constitution of the
24 United States;

1 (C) its powers to tax and spend for the
2 general welfare under Section 8, Article 1 of
3 the Constitution of the United States; and

4 (D) its powers to enforce section 1 of the
5 Fourteenth Amendment under Section 5 of the
6 Fourteenth Amendment to the Constitution of
7 the United States.

8 (20) Congress has exercised these constitutional
9 powers to create, expand, and insure health care ac-
10 cess for people in the United States for decades.
11 Pursuant to this constitutional authority, Congress
12 has enacted, and subsequently reauthorized, numer-
13 ous health care programs including title XVIII of
14 the Social Security Act (Medicare, enacted in 1965);
15 title XIX of the Social Security Act (Medicaid, en-
16 acted in 1965); and title XXI of the Social Security
17 Act (Children’s Health Insurance Program, enacted
18 in 1997).
