1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “American Food Supply  
5 Chain Resiliency Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

1           (1) a secure domestic food supply is a national  
2 security imperative for the United States;

3           (2) a resilient food supply chain in the United  
4 States is necessary for the production of an abun-  
5 dant, affordable supply of highly nutritious specialty  
6 crops, dairy, grains for human consumption, meat  
7 and poultry, aquaculture, and other food products,  
8 which are vital to the health and well-being of all  
9 people in the United States; and

10          (3) expanded capacity for the aggregation, proc-  
11 essing, manufacturing, storing, transporting, whole-  
12 saling, and distribution of locally and regionally pro-  
13 duced food products, including specialty crops, dairy,  
14 grains for human consumption, meat and poultry,  
15 aquaculture, and other food products, is needed to  
16 increase domestic supply chain resiliency and expand  
17 local, regional, and national market opportunities for  
18 producers.
